

HAWORTH®

Haworth Inc. is a global leader in the design and manufacturing of organic workspaces, including raised floors, movable walls, systems furniture, seating, storage and wood casegoods. Family-owned and privately held, Haworth is headquartered in Holland, Michigan, and serves markets in more than 120 countries through a global network of more than 600 dealers. The company had net sales of US \$1.11 billion in 2009.

Haworth at a glance

- Haworth operates over 20 wholly owned manufacturing facilities in 10 different countries, 55 sales offices and 600 dealers worldwide
- Nearly 7,000 members are employed by Haworth worldwide. The Haworth family extends far beyond the people whose name is on the building. It includes employees, partners, suppliers and dealers who all help make it happen behind the scenes.
- Global acquisitions have strengthened workspace and design capability
- A focus on invention has resulted in over 250 patents
- A longstanding commitment to the environment has brought many awards
- Haworth's quality exceeds the industry standard
- Leading designers from around the world contribute to Haworth products and processes
- In 1994 Haworth reached the \$1 billion mark in sales, and in 2000 surpassed \$2 billion

Haworth's roots were planted in 1948. In a garage in Holland, Michigan, G.W. Haworth first started his business to help put his kids through college. As the company grew in sales and acquisitions, G.W.'s son Dick assumed the position of CEO and then Chairman of the Board. Under Dick's leadership, Haworth has become a truly global company. In 2009, Matthew Haworth, Dick's son was appointed Chairman.

Haworth's strategic direction begins with its core values: a passion for serving customers, serving members, embracing change, continuous pursuit of greater efficiencies and striving for unmatched excellence in quality.

Building on these principles, Haworth seeks to meet its performance objectives through the leveraging of its global capabilities, a unique adaptable workspaces approach and a designed performance standard for quality and product engineering. This allows Haworth to provide a broad set of solutions anywhere in the world with the highest standard of quality.

To execute this strategy, Haworth operates in three geographic sectors: North America, Europe, Asia/Pacific. Haworth connects suppliers and dealers with 24 ISO-9001 registered manufacturing sites in 10 countries and offer products and services in over 120 countries.
